

Career Summary

Esteban is a Software Engineer with 9 years of experience in software development and 5 years as an iOS mobile developer. He has experience in the banking sector contributing to the development of digital wallets for different banks in Latin America; most of the projects in which he has participated have been developed under the scrum methodology. He has a master's degree in software engineering and he is interested in working with the latest trends and technologies in AI and the iOS development field such as SwiftUI and Combine, applying different architectural and design patterns depending on every project's needs. Esteban has expertise using AI tools such as Claude Code and Github Copilot, using them to plan, refine, develop, and fix entire app features.

Summary of Qualifications

- Proficient In:
- Swift
 - SwiftUI
 - UIKit
 - Combine
 - Foundation
 - Alamofire

- XCode
 - Postman
 - Mockoon
 - Terminal
 - Git
 - Github

- TBD
 - MVC
 - MVVM
 - MVP
 - VIPER
 - POO

- SOLID
 - Design Patterns
 - Architectural Patterns
 - Unit Testing

- Github Copilot AI
 - Claude Code AI

Languages

- Spanish (native - C2)
- English (proficient - B2)

Career History

GFT Technologies

iOS Mobile Developer

Lulo Bank Mobile App

Jul. 2024 – Current position

- Contribute to the creation for the new onboarding experience using flutter and swift
- Method channel creation to communicate with flutter code
- Implement new feature-flag based features
- Clean base code and remove unused code under old feature flags.
- Bug fixing and Code reviews.
- Write and improve unit tests with 85%+ coverage

Tools/Technologies: Swift, SwiftUI, Foundation, Flutter, XCode, VSCode, Terminal, Git, BitBucket Jira, Trunk Based Development, VIPER, SOLID, Design patterns.

Intellias, remote

iOS Mobile Developer

Cricut iOS App

Oct. 2025 – Apr. 2026

- Create new features and maintain existing features.
- Implements new feature-flag base features.
- Create new reusable components in SwiftUI.

- Fix existing bugs in the app.
- Use AI to create new features and extend existing features.
- Write and improve unit tests with 80%+ coverage
- Review peers code

Tools/Technologies: Swift, SwiftUI, TCA, GitHub Copilot CLI, Claude Code, XCode, Mockoon, Postman, Terminal, Git, Github, SOLID, Design patterns.

GLOBANT,

Barranquilla,

Colombia

iOS Mobile Developer

Carnival Cruise Line (Mobile app for cruises)

Jul. 2024 – Oct. 2025

- Create new features and maintain existing features.
- Create new reusable components in SwiftUI
- Migrate UIKit components to SwiftUI
- Support ThemeManager for the app.
- Refactor the networking layer to make async API calls and store in-progress requests to avoid concurrent requests to the same API at the time.
- Write and improve unit tests with 80%+ coverage
- Bug fixing and Code reviews.

Tools/Technologies: Swift, UIKit, Foundation, Alamofire, XCode, Mockoon, Postman, Terminal, Git, Github, Codecommit, Git flow, VIPER, SOLID, Design patterns.

iOS Mobile Developer

IzipayYa (Digital Wallet)

Nov. 2023 – Jul. 2024

- Rebranding of the Tunki-Izipay iOS App.
- Create new features for the app.
- Theme Manager support.
- Develop and maintain the Tunki-Izipay iOS App under the Scrum methodology.
- Review teammates' code, write refactors, and deliver app versions.
- Guide new team members to understand the team's building and delivery process and the use of different libraries and tools.

Tools/Technologies: Swift, UIKit, Foundation, Alamofire, XCode, Mockoon, Postman, Terminal, Git, Github, Codecommit, Git flow, VIPER, SOLID, Design patterns.

iOS Mobile Developer

Red Link White Wallet (Digital Wallet)

Mar. 2023 – Nov. 2023

- Create reusable components for the App.
- Develop and maintain features for the App under the Scrum methodology.
- Review teammates' code, write refactors and deliver app versions.
- Guide new team members to understand the team's building and delivery process and the use of different libraries and tools.

Tools/Technologies: Swift, SwiftUI, Foundation, Alamofire, XCode, Mockoon, Postman, Terminal, Git, Git Lab, Git flow, MVVM, SOLID, Design patterns.

iOS Mobile Developer

Tunki-Izipay (Digital Wallet)

Jan. 2023 – Mar. 2023

- Requirements analysis for application development
- Estimation of requirements times
- Build new features.

- Update and support existing features.
- Code review
- Internal trainings

Tools/Technologies: Swift, UIKit, Foundation, Alamofire, XCode, Mockoon, Postman, Terminal, Git, Github, Codecommit, Git flow, VIPER, SOLID, Design patterns.

iOS Mobile Developer
PeiGo (Digital Wallet)

Feb. 2022 – Dec.2022

- Requirements analysis for application development
- Estimation of requirements times
- Build new features.
- Update and support existing features.
- Code review
- Internal trainings

Tools/Technologies: Swift, SwiftUI, Foundation, Alamofire, Combine, XCode, Mockoon, Postman, Terminal, Git, Github, Codecommit, Jira, Trunk based development, MVVM, SOLID, Software design patterns.

iOS Mobile Developer
iOS Academy

Sep. 2021 – Dic. 2021

- Build applications using Swift and UIKit
- Implementing architectural patterns such as MVVM, MVC, and MVP
- Use design patterns and principles according to the needs of every feature and module of the App.
- Use of libraries such as Foundation, Alamofire, and CoreData

Tools/Technologies: Swift, UIKit, Foundation, Alamofire, CoreData, XCode, Postman, Git, Github, MVC, MVP, MVVM, Jira.

OPEN SYSTEMS, Cali, Colombia

Back-end Developer

OpenSmartflex (Software for utility services)

Aug. 2017 – Sep. 2021

- Develop and maintain different features of the software.
- Design relational database models, create SQL queries, and improve the performance of existing queries.
- Review teammates' code.
- Guide new developers through the building and delivery process used in the team.

Tools/Technologies: PL/SQL, Java, Oracle databases, Oracle SQL, DBExplorer, Eclipse, JDK.

Education

Universidad Americana De Europa, online
MS, Software Engineering

Feb. 2020 – Feb. 2022

Universidad De Cartagena, Cartagena, Colombia
BS, Systems Engineering

Feb. 2012 – Aug. 2019
